

#KNOWLEAD

Protect your child from lead exposure.
Know the sources of lead contamination:

Lead based paint

If your house was built before 1978

Imported goods

Some imported goods such as toys, cosmetics, candy, and spices

Herbal remedies

Some herbal remedies and folk medicines

Leaded pipes

Old water pipes with lead

Ceramic pottery

Lead has long been used in ceramic ware in glazes

Children should be tested for lead at ages 1, 2, 3, 4 and 5
